SENIOR DIRECTORY

Following are the activities records of the members of the Class of 1961. Home addresses are accurate as of December, 1960. The Roman numeral at the beginning of each activity record indicates the number of the professional course in which the student majored; the Senior Portrait section immediately preceding this is organized according to course number and name. The index at the end of the book locates the pages on which various activities are described; a number of activities tabulated in this directory are not covered elsewhere in the book, largely for lack of space.

We regret that this Senior Directory is rather incomplete, since only 60% of the class responded to our biography mailing. Nor is the Senior Portrait section complete, for only approximately 75% of the graduating class is represented there.
